

Press Release

OFFICE OF THE ELECTORAL COMMISSION

8th June 2020

For Your Information and release to public

RE: Update on registration statistics

As the tentative dates of the upcoming Presidential Elections have been announced, the commission wishes to update the press and members of the public on registration statistics up to May 2020.

1352 updates have been made between January and May to the voters register, of this 692 were registrations comprising of 608 first time voter registration.

There are also 41 outstanding rectifications from the NIN mismatch as communicated in Friday's press conference. The list of NIN mismatch will be published on the Commission's Facebook page as well as website.

The commission would like to at this time remind all voters that it is imperative that their names are correct and registered on the voters' register for them to be able to participate in the upcoming Presidential Elections.
